

Can we help you to make Harrow greener?

LEAF

Harrow in LEAF is a local green charity, which supports allotment growers and other horticultural groups in Harrow. Our biggest venture is the annual Harrow in LEAF Horticultural Show and Fun Day, which has been taking place over the August Bank holiday since 2005.

GREEN SHOOTS

We are looking for ways to support community projects around the borough and invite you to apply for a small financial donation if you have something in mind. We can provide up to £300 to help your idea come to life and bring those green shoots to fruition. In the past we've supported disabled groups, helped local schools to equip their gardening clubs, provided money for planting at care homes and in public spaces.

JUST ASK US

If you think that your organisation could use some support for a horticultural project, ask about a contribution and we'll do what we can to help. If you've raised some of the money we may be able to add our contribution.

All we need to know is:

- Name and contact for the application
- Status of the group or organisation (e.g. charity, school etc.)
- Information about the project
- Total costs and amount of grant you are seeking

All we ask is that you give us some feedback about the success of your project.

To tell us about your project, contact our Secretary:

Frances Goldingay hgoldingay@aol.com
